GREAT VARIETY.

GREAT QUALITY.

GREAT PRICE.

What started more than 100 years ago with the invention of self-adhesive window seals is now suki's top brand for protecting and caring, sealing and insulating, bonding and mounting as well as for home solution products. Always at the cutting edge of trends and innovations, we are constantly developing and adapting our very wide range of products to meet consumer needs. Clever new ideas and excellent quality go into maintaining our competitive edge and keeping us clearly differentiated.

FIX-O-MOLL – YOUR BENEFITS:

- ▶ resilient, durable easy-to-use products
- ▶ excellent value for money - thanks to competitive pricing
- ▶ high-quality packaging with uniform impression
- ▶ international strength due to multilingual packaging
- ▶ easy-to-understand consumer information displayed on the shelf
- ▶ our range is regularly updated with innovative ideas

THE KEY

DIFFERENCE:

FIX-O-MOLL QUALITY

There are two reasons for fix-o-moll's excellent quality: the use of selected raw materials and the perfect mix of adhesives and optimised materials. To achieve the best possible results we work closely with our manufacturer network. By teaming up with these innovative partners, we are always sure to find a perfect solution that complies fully with European standards and classifications.

We source our REACH-compliant raw materials predominantly from Europe. On the occasions we source from Asia and we safeguard our quality by using BSCI-certified suppliers, our own laboratories, precise shipment control and regular on-site visits.

FIX-O-MOLL GUARANTEE:

To ensure that fix-o-moll products meet all consumers' requirements, we conduct intensive quality control throughout every stage of production. This also involves maintaining the highest standards in regard to efficient environmentally friendly production, keeping our packaging to a minimum, using as little plastic as possible and working in accordance with the latest environmental standards.

PROTECTING AND CARING WITH FIX-O-MOLL

Surface protection is one of fix-o-moll's main strengths. This is our origin and heritage. 100 years of experience go into the best quality, the best presentation and one of the most comprehensive product range on the market – a selection we are constantly improving with innovative ideas inspired by the latest furniture trends and underscored by our competitive prices.

► Furniture gliders

fix-o-moll furniture gliders protect all kinds of floor coverings, including carpet, parquet or tiles, effectively against lasting damage caused by moving objects and heavy pieces of furniture. Offering excellent quality, our gliders are particularly user-friendly and easy to apply.

► Protective buffers for walls and doors

fix-o-moll's easy-to-apply buffers not only protect walls, wallpaper, doors and furniture from bumps and knocks but also reduce the noise of impacts.

► Sound absorbing anti-slip pads

Small and inconspicuous, fix-o-moll sound absorbing anti-slip pads prevent doors or drawers closing loudly, washing machines bumping during the spin cycle or small objects from sliding. For customers who want to give their homes that final perfect touch, they offer an infinite number of ways to doing so.

► Doorstops and wedges

fix-o-moll permanently installed doorstops and universal door wedges keep doors and windows open and prevent them getting damaged by banging into walls or furniture even when strong draughts occur.

fix-o-moll protection and care products have also been designed to be attractive. We attach great importance to this since it enables you to provide your customers with appealing, high-quality, high-value products that complement their homes.

TOP PRODUCTS

► BIGDUO Parquet Gliders – Made in Germany

Available exclusively from fix-o-moll, BIGDUO parquet gliders are “made in Germany” and have been designed especially for parquet flooring. By combining an especially soft gliding layer with a strong stabilising layer and very strong adhesive, they guarantee maximum protection even in very high wear and abrasion environments – a perfect example of innovative made-in-Germany quality from fix-o-moll.

EASYGLIDER: Our universal gliders ◀

EASYGLIDERS are fix-o-moll’s answer to your customers’ need to move heavy furniture without scratching the floor. Another good idea of fix-o-moll, their unique smooth-sliding layer minimises friction and ensures furniture slides extremely well on laminate, tiles or carpets.

SEALING AND INSULATING WITH FIX-O-MOLL

When it comes to sealing and insulating, fix-o-moll is a pioneer. Evolving from nail-on felt strips, we developed a range of self-adhesive synthetic products for various applications. Today, fix-o-moll solutions for sealing and insulating offer the widest range of products in the industry. What is more, the quality is excellent and the prices very competitive – just what your customers need to save energy.

► Weatherstrips for doors and windows

fix-o-moll self-adhesive weatherstrips offer a fast, energy-efficient solution against draught, poorly insulated areas and unwanted closing noises. Quickly and easily applied to window or door frames, they provide a reliable and long-lasting weather-tight seal.

► Door brush sealings

Made especially for doors and providing permanent and efficient protection against cold and dirt, the fix-o-moll range of sealing and insulating products includes robust easy-to-fit door seals made of plastic and aluminium.

► Special sealings

Thanks to fix-o-moll's wide range of products, you can offer your customers everything they will ever need to seal and insulate their homes – whether it's insulating single-glazed windows, preventing radiator heat loss or much more.

TOP PRODUCTS

► PROFI thermoplastic sealings

Our patented PROFI thermoplastic sealings meet the same criteria as silicone sealant but are significantly cheaper and 100 % recyclable. Providing a perfect fit to every window and gap size, even the most unhandy customers will find them easy to install.

Self-adhesive rubber sealings ◀ on a 50 m bobbin

Offer your customers quality and simplicity at a great price. Practical, economical, appealing, a 50 meter- bobbin of self-adhesive sealing strip is the perfect solution to your customers' larger construction and renovation projects.

► AUTOMATIC door sealing

fix-o-moll AUTOMATIC door sealing has a sturdy aluminium profile rail and automatically adjusts to uneven floor levels. Very easy to fit, MEGASTRIPS ensure it does not leave any residue when removed.

WE TURN YOUR DISPLAY INTO A SELLER

It is important that your customers find what they need on the display quickly and easily – even if they don't know what they're looking for. To answer all their questions, the fix-o-moll display also provides clear, easy-to-understand product information and instructions.

To identify the right product easy, many fix-o-moll products are equipped with an intuitive visible colour code system, which is clearly explained on an infoboard. Depending on the colour, information such as seal quality and surface protection application specs are provided.

Large images of the profiles are shown and each package contains brief multi-language descriptions as well as easy-to-understand diagrams depicting how the product is used. This leaves customers feeling assured they have found what they want without having to ask.

High-quality consistently branded packaging across all four product groups provide a good overall image.

BONDING AND MOUNTING WITH FIX-O-MOLL

When it comes to adhesive tapes, fix-o-moll offers a high-quality standard assortment that rounds off the product range perfectly. And meets every customer fastening, repairing, binding, renovating, making or marking need with exactly the right product. Totally dependable, all fix-o-moll adhesive tapes are characterised by their extremely strong adhesive strength.

► **Mounting and fastening**

Fastening without drilling, screwing or nailing is very popular with DIYers. Proving the perfect answer to this need, fix-o-moll offers a wide range of easy-to-use solutions. These cover everything from permanent adhesives and flexible residue-free removal solutions to almost invisible, self-levelling, double-sided adhesives and assembly tapes through practical assembly strips, indoor and outdoor solutions. Whether it is handicraft or professional quality your customer is after, you can be sure fix-o-moll has just the right product to meet their needs.

► **Packing and closing**

To meet your customers' varied requirements, fix-o-moll packing and office tapes come in different qualities and are available with custom-fit dispensers that encourage repurchasing.

► **Renovating and masking**

To help your customers achieve the best results indoors as well as out, the fix-o-moll range of residue-free masking tapes offer a number of easy-to-use options. Take COVERFIX 2-in-1 for example – the clever solution that combines plastic sheeting and masking tape in one labour-saving product.

► **Repairing and securing**

Not just any adhesive tape will do – especially where absolute dependability is a must. Ranging from repair and insulating tapes, anti-slip and warning tapes, fix-o-moll products meet all your customers' repairing, securing and quality requirements.

TOP PRODUCTS

► MEGASTRIPS

fix-o-moll MEGASTRIPS are practical all-rounders when it comes to fixing smaller objects securely and reliably. They have powerful adhesive on both sides, can be removed without leaving a residue and are waterproof for use in the shower area.

POWERSTRETCH ◀

fix-o-moll self-sealing repair tape is extremely reliable – once applied, it welds itself to the object providing permanent insulation or waterproofing for electrics or plumbing.

FIX-O-MOLL

HOME SOLUTIONS

fix-o-moll Home Solutions offer a complete and always expanding range of clever self-adhesive, self-bonding and magnetic problem solvers that are available in various qualities for numerous applications. An increasingly popular highlight, are our touch fasteners solutions that fit seamlessly into every style of living thanks to their decent modern look.

TOP PRODUCTS

► Power magnets

Ideally suited to mounting objects without drilling, high-quality fix-o-moll power magnets easily hold up to 10 kg*. Easy to remove and reuse, they are also available in a wide range of shapes and strengths – providing you with the ability to offer your customers solutions to a wide variety of creative applications.

fix-o-tie cable ties ◀

fix-o-tie cable ties combine a strong, flexible metal wire with a robust plastic sheath. They twist to lock, open easily and are reusable – ideal for bundling, binding and organizing.

► Hooks

fix-o-moll hooks can be attached easily in various different ways. Self-adhesive, self-bonding or for hanging on doors and windows, they guarantee a reliable hold and offer your customers a quick, robust and completely reversible alternative to drilling, especially where tiles are concerned.

► Practical household helpers

fix-o-moll solutions for washbasins and sinks, for keeping household and garden utensils fixed and handy, to prevent objects from slipping. Not to mention marking by self-adhesive door signs.

► Touch fasteners

Alongside self-adhesive solutions, touch fasteners are a great alternative to drilling and nailing since it is extremely flexible, stable and secure and yet easy to put on and pull off. fix-o-moll touch fastening products come in a wide range to meet your customers' varying requirements – providing a perfect solution that your customers' might not have even thought about yet.

► Magnets

Thanks to a special combination of neodymium, iron and boron, fix-o-moll magnets are the strongest and most durable available on the market today. With a holding force* of up to 10 kg per magnet, they are also ideal for marking and decorating.

*measured on bare steel

BIG DUO
by Flex

Smooth Protection.
This is how only BIG DUO protects your sensitive premium floors.

1. Extra soft and gentle sliding layer
2. Extra robust stabilizing heart
The third plus: Extra strong adhesive

16x 33 cm

1. Preparation
Clean the floor surface thoroughly. Remove any dust, dirt or grease. The floor must be completely dry.

2. Application
Peel off the protective film. Place the protector on the floor. Press it firmly into the floor with your hand or a roller. The protector is now ready for use.

3. Removal
After use, the protector can be removed. Peel it off carefully. The floor surface remains undamaged and ready for the next use.

4. Storage
Store the protectors in a cool, dry place. Avoid exposure to moisture and direct sunlight.

5. Maintenance
The protectors are self-cleaning. Simply wipe them with a damp cloth. Do not use harsh cleaning agents.

6. Advantages
- Protects your floor from scratches and scuffs
- Easy to install and remove
- No need for glue or other chemicals
- Reusable and eco-friendly

MORE SALES

THANKS TO POWERFUL

PLACEMENT

To meet the needs of you and your customers, fix-o-moll promotion displays can be filled using different product group combinations as well as suki products that provide a fit to the concept. What a great way to grow your sales.

► Targeted cross-selling with clip strips

Where a product hangs is often decisive. And it doesn't always have to be in the fix-o-moll shelf. Eye-catching clip strips not only save space but also allow you to showcase individual products flexibility where they sell best and where your customers can find them when they need them.

► Invitation to purchase

Place your fix-o-moll products in eye-level displays or directly at the checkout where they grab attention and ask to be bought.
